Discover New Research Opportunities

How to Get Access to World-Class Facilities, Tools, and Data with Transnational and Virtual Access

DATE & TIME

**Monday 28th April 2025,
19:00-20:00**

LOCATION

**EGU 2025, ACV
Center, Room: N1**

Ready to elevate your research? Join us at EGU 2025 for an interactive Town Hall session hosted by the IRISCC project, where you'll discover how Transnational Access (TA) and Virtual Access (VA) can unlock free, cutting-edge resources for geoscience research. Learn how to access world-class facilities, datasets, and tools—on-site or remotely—and hear real success stories from researchers who've used these opportunities to push scientific boundaries. Whether you're in the lab or in the field, this session will guide you through the access process, funding options, and collaborative potential across Europe's top research infrastructures.

Agenda

19:00-19:05

Welcome and Introduction to the session; Magdalena Brus (EGI Foundation)

19:05-19:15

Understanding Transnational Access (TA) and Virtual Access (VA); Rosa Petracca (CNR)

19:15-19:20

IRISCC Service Offerings; Janne Rinne (Luke)

19:20-19:25

Opportunities for Geoscientists: Open Calls across projects, Päivi Haapanala (Luke)

19:25-19:40

User Success Stories: Science & Experience Panel

19:40-20:00

Interactive Discussion & Q&A

Come for the insights, stay for the conversation—snacks and drinks are included.
